

LOGIBOX

PACK, TRANSPORT, SAVE

LogiBox gives remarkable savings right away to your logistic and material handling. You can pack goods directly to the LogiBox and deliver goods without separate pallets or without cardboard boxes. You can return boxes to sender easily with low costs. Full packed you can pile three boxes over each other and when they are empty you can pile them within each other and covers over the boxes.

- **90% LESS TIME TO PACKING**
- **80% LESS PACKING WASTE**
- **MUCH EFFECTIVE TRANSPORTATION (EVEN 50% SAVINGS IN FREIGHT COSTS)**

LIGHT WEIGHT, ABLE TO PILE, TIDY

LogiBox has versatile possibilities in logistic chain. Thanks to light weight it is very easy to handle and it is suitable packing material itself for light weight goods. It covers goods very well and LogiBox is possible to stock also outdoors. Loadings and packing will be much faster than usual and this gives savings right away. Rawmaterial is high quality polyethylene which is suitable also for groceries. LogiBox has good impact resistance and good friction resistance and it is UV-stabilised.

SUPPORT YOUR BRAND AND IMAGE

LogiBox is elegant and it's support also to your company's brand and image. If you want you can have LogiBox with your company's colour and logo. Also other permanent markings are available. Markings are long lasting and they have excellent friction resistance.
