PW-SPA FREETIME IN XL	45 kW	200	110	1850	1600	8-10

Pool and cover models vary based on size.

PW-SPA FREETIME IN – now in three different sizes

Our PW-SPA FREETIME IN models are made in Finland and come with wooden panel siding and an integrated stove, which heats up quickly and retains heat extremely well. The window in the stove creates a pleasant atmosphere and makes it easier to monitor wood burning.

Thanks to the tub's compact size and integrated chimney, it is also suitable for terraces.

The panels are made of strong 28 mm Finnish spruce or pine. The sturdy structure makes installation easy: a layer of gravel or some concrete slabs are sufficient as a foundation.

- PE plastic pool that is durable, hygienic and easy to maintain
- Marine-grade aluminium stove with a window
- A step inside the pool makes it easy to get in and out
- Exterior siding: chestnut brown or black
- Interior colour: granite or black granite
- Tub cover and chimney safety cover always included

Available as accessories:

Accessory models may vary.

• Chimney extension 1 m

• Spark arrestor

• Stairs

• Skimmer net

• Drink holder
